SUMMARY

Information Systems graduate who launched a retention initiative at Indosat Ooredoo Hutchison that contributed to a roughly 40% churn reduction in its pilot area. Combines business intelligence, data analytics, and automation with stakeholder management, team leadership, and national first-place wins in business planning and AI ideation.

EDUCATION

Telkom University Bandung, Indonesia
Bachelor of Information Systems | GPA 3.95/4.00 | Outstanding Student Award (Faculty level) *Sep 2022 – Sep 2026*

WORK EXPERIENCE

Indosat Ooredoo Hutchison Jakarta, Indonesia
Tech Plan & Project Tracking Intern, BSD – National Customer Success (NCS) *Apr 2026 – Oct 2026*

- Contributed to a roughly 40% reduction in customer churn across the Surabaya & Sidoarjo pilot by launching **PAS Care** (Proactive Surprise Care Network), a customer-retention initiative that reaches customers with degraded network quality before they complain.
- Built the UiPath REFramework automation behind PAS Care end to end, processing 800–1,000+ transaction records weekly, plus a Power BI dashboard to track its impact.
- Eliminated manual data handling in the weekly **CX Roaming Heatmap** dashboard by automating the full data pipeline from Salesforce through processing to Power BI, keeping reporting consistent and current.
- Delivered two digital products for the **HiFi Air Digital Ecosystem** through deployment and UAT with real field agents: HiFi Chain, a supply-chain web app, and FITA 2.0, a mobile app for salespeople and Account Executives.
- Owned the request pipeline for internal tooling and automation across the NCS group, turning stakeholder needs into working solutions from intake and solutioning through deployment.

Human Plus Institute Jakarta, Indonesia
Machine Learning Engineer Intern *Jun 2025 – Sep 2025*

- Achieved 85% detection accuracy for warehouse KPI monitoring and real-time traffic detection with YOLO models.
- Cut manual labeling time and cost by running the dataset pipeline from collection and cleaning to annotation.
- Made models production-ready with Docker containers, FastAPI/Flask APIs, and GitHub Actions CI/CD.

PROJECTS

Barbershop Financial Management System | *Freelance* | *Laravel, REST API* *Sep 2025 – Nov 2025*

- Gave a small-business client real-time financial visibility by building a Laravel system with a custom REST API syncing live data, owning requirements through deployment and user training as sole developer.

Gloo – Daily Blood Sugar Management App | *Bangkit Academy* | *TensorFlow, MobileNetV2* *Sep 2024*

- Achieved 96% accuracy by training and deploying a MobileNetV2 model on 1,046 self-curated, labeled images.

LEADERSHIP & ORGANIZATION

AIESEC in Bandung | *Coach, AIESEC Future Leaders* *Nov 2023 – Feb 2024*

- Delivered the AIESEC Future Leaders event by leading an 11-member team from planning to execution.

AIESEC in Bandung | *Committee Member, Finance & Customer Experience* *Feb 2023 – Jan 2024*

- Closed the project profitably for 80+ attendees by managing its budget, cash flow, and financial reporting.

AWARDS & CERTIFICATIONS

Certified Associate Data Scientist | BNSP (National Professional Certification Agency) Oct 2025
1st Place, DINACOM 2025 AIDeathon | National, Undergraduate, AI use case for education, 20+ teams 2025
1st Place, National Business Plan Competition | Creative Entrepreneurship Summit, diabetes app, 20+ teams 2024
Bangkit Academy 2024 – Machine Learning Path | Distinction Graduate, top 10% of 4,000+ Sep 2024 – Dec 2024

SKILLS

Data & Analytics: SQL, Python, pandas, Power BI, Data Visualization, ETL / Data Pipelines, Salesforce Integration
Business & Delivery: Stakeholder Management, Requirements Gathering, UAT, Team Leadership
Automation & AI: UiPath (REFramework), Process Automation, scikit-learn, TensorFlow, Computer Vision (YOLO, MobileNetV2), Deep Learning, Model Evaluation
Engineering: JavaScript, PHP, FastAPI, Flask, Node.js, Laravel, REST APIs, Docker, CI/CD, GitHub Actions, Git
