Anaking Faiqal

Automation & Software Engineer | RPA, Machine Learning & AI

Bandung, Indonesia | +62 8157-2504-501 | faiqalanaking@gmail.com | Portfolio | LinkedIn | GitHub

Profile Summary

Automation-focused Software Engineer with hands-on experience building production RPA solutions (UiPath REFramework), end-to-end data pipelines, and Power BI dashboards in an enterprise telecommunications environment. Complements automation expertise with applied Machine Learning and AI (computer vision, deep learning) and a solid backend foundation in API development, database design, and system architecture. Experienced in coordinating with cross-functional stakeholders from solutioning through development, deployment, and UAT, with strong problem-solving skills and a growth-oriented mindset.

Work Experience

Indosat Ooredoo Hutchison , Jakarta **Apr 2026 - Present**

Tech Plan & Project Tracking Intern - Business Support Development (BSD), National Customer Group (NCS)

- Maintain and execute the full pipeline of project requests across the NCS group, covering stakeholder coordination, solutioning, development, and deployment of internal tooling and automation.
- **Proactive Surprise Care Network (PAS Care):** built the entire automation from development to production using UiPath REFramework to proactively notify customers detected with degraded network quality; now running in production and processing hundreds to thousands of transaction records, complemented by a Power BI analytical dashboard.
- **CX Roaming Heatmap:** automated the weekly end-to-end data flow from the Salesforce backend through processing to the final dashboard, eliminating manual data movement and ensuring consistent, up-to-date reporting.
- **HiFi Air Digital Ecosystem (Internship Final Project):** delivered an integrated sales ecosystem comprising **HiFi Chain** (web app digitalizing the supply chain) and **FITA 2.0** (mobile app for salesmen and Account Executives), taken all the way to deployment and UAT with real field agents.

Human Plus Institute , Jakarta **Jun 2025 - Sep 2025**

Machine Learning Engineer Intern

- Built and deployed YOLO-based Computer Vision systems for warehouse KPI monitoring and real-time traffic detection, achieving 85% accuracy.
- Designed and managed the entire dataset pipeline (collection, cleaning, annotation) to reduce manual labeling time and cost.
- Containerized ML models using Docker and exposed them via FastAPI/Flask APIs, enabling integration via CI/CD pipelines (GitHub Actions).

Education

Telkom University , Bandung **Sep 2022 - Sep 2026**

Bachelor of Information System | Final CGPA: 3.95

- Awarded Outstanding Student at the Faculty Level for academic performance and achievements in multiple national competitions.

Leadership & Organizational Experience

Coach of AIESEC Future Leaders , AIESEC in Bandung **Nov 2023 - Feb 2024**

- Led a team of 11 members through the planning, execution, and successful completion of the event.
- Mentored and provided guidance to participants, helping them develop leadership, teamwork, and problem-solving skills.

Committee Member, Finance, & Customer Experience , AIESEC in Bandung **Feb 2023 - Jan 2024**

- Oversaw participant engagement (80+ attendees), ensuring positive experiences and smooth event operations.
- Managed budgets, cash flows, and financial reporting - achieving project profitability.

Training & Certifications

Certified Associate Data Scientist (Professional) - BNSP , Bandung **Oct 2025 - Oct 2025**

- Earned Certified Associate Data Scientist (BNSP) certification, validating competencies in data analysis, statistical methods, and applied machine learning aligned with national professional standards.

Bangkit Academy (Google, Tokopedia, Gojek, Traveloka) , Bandung **Sep 2024 - Dec 2024**

- Selected as a Distinction Graduate (Top 10%) among 4,000+ national participants in the Machine Learning path, recognized for exceptional performance in technical modules and final project delivery.

Skills

- **Programming:** Python, JavaScript, PHP, SQL
- **Automation & RPA:** UiPath (REFramework), Process Automation, Workflow Orchestration, Salesforce Data Integration, Dev-to-Prod Automation Deployment
- **Machine Learning & AI:** Computer Vision (YOLO, MobileNetV2), Deep Learning, Data Science, Data Preprocessing, Model Evaluation
- **Backend & Systems:** Node.js, Express.js, Laravel, FastAPI, Flask, RESTful APIs, System Design
- **Data, Tools & DevOps:** Power BI, Dashboard Development, ETL / Data Pipelines, Docker, GitHub Actions, Jupyter Notebook, Swagger, Git
- **Soft Skills:** Stakeholder Coordination, Solutioning, Project Tracking, Cross-functional Collaboration, Problem Solving, Leadership, Adaptability

Projects

Barbershop Financial Management System (Freelance) **Sep 2025 - Nov 2025**

- Developed a full-stack financial management system using Laravel with a custom RESTful API integrating external live systems for real-time data synchronization; owned the full lifecycle from requirement gathering to deployment and user training.

Gloo - Daily Blood Sugar Management App (Bangkit Academy) **Sep 2024 - Sep 2024**

- Developed and deployed MobileNetV2 model (96% accuracy) and curated a labeled proprietary dataset (1,046 images).
